CORRIGENDUM - II

RFP for Supply, Installation and Maintenance of ATD (Automated Tracking Device) with an Integrated Emergency System in Transport Vehicles for Directorate of Transport, Government of Goa

Tender No: GEL/GPS/RFP-25

Published On: 24/10/2018

GEL in association with DOT had floated the above tender. As per Rule 125-H of CMVR 1989, it is mandatory that the GPS/GPRS Device with Panic Button shall be in accordance with the AIS 140 until such time the corresponding BIS specifications are notified. In lieu of the Rule, the bidders were asked to submit the Test Report as per IS 16833 : 2018 which shall comply with the BIS specifications mentioned at “Annex A: ATD WITH AN INTEGRATED EMERGENCY SYSTEM” on the RFP.

Meanwhile, On 25th October 2018, Ministry of Road Transport and Highways published a Notification with regards to the Fitment of Vehicle Location Tracking Device and Emergency Button in all Public Service Vehicles. The said notification stated that “The public service vehicle owner shall have freedom to choose or install the VLT device of his choice from any of the manufacturers as long as it is Type Approved as per Central Motor Vehicles Rules, 1989” and also “VLT Devices Fitted on the vehicle shall be type approved as per AIS: 140”.

In lieu of the notification, it is proposed to cancel the RFP floated and to design the approval process wherein the OEM's will apply and a Approval Certificate will be granted to them in order to supply and fit the VLT device with Emergency system in public service vehicles. Therefore, the approval process is been designed and hosted on www.goelectronics.co.in.
